---

## Summary

---

As an international **Master's** student in **Computer Engineering** at UMass Dartmouth, I bring hands-on experience in **Web Development** with **Angular and Node.js**. Along with working on **Java projects**, I am expanding my expertise through courses in **Database Design and Machine Learning**. I am seeking an **internship for Spring or Summer 2025**. Feel free to explore my resume and projects on this [website](#) or scan the QR code below.

## Skills

---

Angular, Node.js, ExpressJS, Bootstrap, Web Development, Front-End Development, Responsive Web Design, Java, Python, C/C++, JavaScript, Databases, SQL, Cybersecurity, Object Oriented Programming, GitHub

## Education

---

**University of Massachusetts Dartmouth | North Dartmouth, MA**  
**MS in Computer Engineering | 05/2025**

- Current GPA: 3.95
- Gained foundational knowledge in **cybersecurity**, learning about key concepts in securing systems and networks.
- Currently expanding skills through courses in **Advanced Databases** and **Machine Learning**, exploring complex data management and intelligent systems.

**Hoa Sen University | Ho Chi Minh City, Vietnam**  
**BS in Information Technology | 12/2022**

- Graduation: Summa Cum Laude, GPA: 3.5
- Performed well in courses related to **Web Development**, **Databases**, **Object-Oriented Programming (OOP)**, **Algorithms**, and **Data Structures**.
- Built a solid foundation in problem-solving and software development through coursework and hands-on projects.
- Gained practical experience in web application development and database management, which sparked my interest in full-stack development.
- Graduated with honors, reflecting consistent effort and a passion for learning.

## Experience

---

**University of Massachusetts Dartmouth | North Dartmouth, MA**  
**ECE 160 Grader | 01/2024 - 05/2024**

- Evaluate and grade C programming assignments for the course "Foundations of Computer Engineering."
- Assist students in improving their coding skills through detailed evaluations and comments.
- Ensure grading consistency and meet deadlines for assignment evaluations.

**Hoang Minh CO | Ho Chi Minh City, Vietnam**  
**Full Stack Web Developer | 12/2022 - 02/2023**

- Develop and maintain a web application using **Angular** for front-end development and **Bootstrap** for responsive design.
- Design and implement **back-end APIs** using .NET, ensuring smooth communication between the front-end and back-end.
- Worked with Oracle databases, writing queries and contributing to the design of database schemas for application functionality.
- Involved in both **front-end** and **back-end** tasks, focusing on improving user experience and performance.

## Languages

---

English, Vietnamese
